The Chief of the General Staff of the Armed Forces of Montenegro, Major General Dragutin Dakić, alongside the Head of the Crisis Medical Team Dr. Nermin Abdić, received a valuable NATO donation of 20 ventilators. Their value amounts EUR 300,000, while another batch of medical equipment worth EUR 500,000 is expected in the coming days.

On behalf of the Ministry of Defence, I thank NATO for the valuable donation of medical equipment worth EUR 800,000. This embodies yet another proof of support within the Alliance that acts in all situations, including the COVID-19 pandemic. It is confirmation that only with the unity and support of all NATO partners can we effectively oppose the challenges today's world is facing, Major General Dakić announced.
