- 06.11.2020

EurActiv (6 November 2020)

The European Parliament and the blocs national governments are likely to reach a deal on the EUs trillion long-term budget for 2021-2027 on Monday (9 November), the European Commissions Budget Commissioner Johannes Hahn said.

The long-await agreement will come after negotiators have reached a deal on Thursday on one of the main stumbling blocks the link between EU money and governments respect for the rule of law.

Todays agreement will trigger additional dynamics, Hahn told Reuters. I would expect a deal on the whole Multi-annual Financial Framework on Monday.
