Talks are ongoing with Bulgaria on specific projects, but it is clear to the government that for Macedonians, the language and identity of North Macedonia have no place in the debate. The focus in the coming months is the Action Plan that is on a cross-sectoral basis. The government in Skopje expects to be approved at the first intergovernmental conference between North Macedonia and Bulgaria to be adapted, accepted and implemented immediately.

Prime Minister Zoran Zaev said yesterday that the political part is something that should be discussed after the elections in Bulgaria. Explaining the Action Plan, he said that it deals with transport, border construction, gas network, railways, roads, for better connection with Bulgaria, cooperation in education, health, culture, sports and digitization.
