
FOR DUTCH ELECTION, BIG TECH TAKES A BREATHER

-

17.03.2021

Politico (17 March 2021)

By Vincent Manancourt

Silicon Valley pulled out all the stops for last years run for the White House. Its work in the Netherlands has been far less hands-on.

As Dutch voters go to the polls this week, the limits social media companies placed on political advertising during the U.S. election are gone, and their technology has been used to illegally track visitors to Dutch political party websites, according to research seen by POLITICO.
