Global Times (24 May 2021)

Yang Sheng

High-level strategic interactions between China and Russia are getting increasingly frequent as a Chinese top diplomat will visit Russia for a new round of strategic security consultation this week.

Frequent interactions between Beijing and Moscow show great mutual-trust and interdependency. These interactions are necessary amid the rising pressure and hostility from the US. China-Russia cooperation will not just affect the continents of Europe and Asia but also have a global significance, said Chinese experts.
