
ENERGY PRICE SPIRAL COULD HARM EU RECOVERY

- 07.10.2021

EU Observer (7 October 2021)

By ELENA SÁNCHEZ NICOLÁS

The increase in energy prices, driven by a surge in gas demand and tight supply, and their knock-on effect on consumers and industry bills have put the bloc's economic recovery under pressure.

"This price shock cannot be underestimated," EU energy commissioner Kadri Simson told MEPs during a debate in Strasbourg on Wednesday (6 October).
