
UKRAINE WAR: US SECRETLY GIVES KYIV LONG-RANGE MISSILES

-

25.04.2024

BBC News (25 April 2024)

Ukraine has begun using long-range ballistic missiles secretly provided by the US against invading Russian forces, American officials have confirmed.

The weapons were part of a \$300m (£240m) aid package approved by US President Joe Biden in March and they arrived this month.

They have already been used at least once to strike Russian targets in occupied Crimea, US media report.
