
AMMUNITION AND WEAPONS DISCOVERED IN KHOJAVAND

-

26.04.2024

Azernews (26 April 2024)

A total of 74 different types of mines, 74 different types of grenades, 4 TNT explosives, 110 explosives, 12 shells, more than 23 thousand cartridges and other ammunition were found inside the building in the South Khirman village of Khojavand district and handed over to the relevant authorities, Azernews reports, citing the Barda regional group of the Press Service of the Ministry of Internal Affairs (MIA).

In addition, the person who did not hand over the ammunition found to the police as a result of the operational measures was identified and detained.

Khojavand District Police Department is investigating the facts.
