06.06.2024

Euronews (5 June 2024)

Azerbaijan and the UAE unveiled plans for three large-scale solar and wind projects in Azerbaijan, totaling 1 GW capacity, during a ceremony held at the Baku Energy Forum.

Azerbaijan and the United Arab Emirates announced the joint decision to build three major solar and wind projects in Azerbaijan with a capacity of 1 GW, with a ground-breaking ceremony on the sidelines of the Baku Energy Forum on Tuesday.

Ilham Aliyev, President of Azerbaijan told Euronews this event actually demonstrates our green agenda and also demonstrates that our position is attractive not only for those who invest in fossil fuels, but also for those who invest in renewables. Masdar is our strategic partner in the area of renewable energy.
