Azerbaijani and Iranian naval forces recently conducted the AZIREX-2024 joint search-and-rescue exercise in Iran's Caspian Sea sector.

It included activities focused on implementing rescue and medical assistance measures in the event of maritime accidents, conducting search and rescue operations, and ensuring the safety of vessels, Azerbaijan's Defense Ministry reported on November 4.

The primary goal of the exercise was to enhance military cooperation between Azerbaijan and Iran, promoting a message of cooperation for peace and friendship.
