Radio Bulgaria (17 January 2025)

*The Ukrainian parliament has authorized the purchase of two Russian nuclear reactors from Bulgaria, Euractiv reports.*

The energy committee of the Ukrainian parliament greenlighted the purchase of two old Russian nuclear reactors to expand the Khmelnytskyi nuclear power plant. "The Cabinet of Ministers of Ukraine and/or Energoatom are granted permission to negotiate, finalize the text, sign, pay for, accept and store the equipment", the amendment, seen by Euractiv, reads.
