Baku has accused Armenian Prime Minister Nikol Pashinyan of misrepresenting the situation regarding the peaceful return of Azerbaijanis to their ancestral lands in present-day Armenia.

In a statement issued on Tuesday, Azerbaijan's Foreign Ministry responded to PM Pashinyan's recent article published in Armenian media, refuting his claims on the matter.

PM Pashinyan claimed that the authorities of Azerbaijan are weighing in on a Western Azerbaijan narrative to challenge the territorial integrity of Armenia, referring to the Western Azerbaijan Community (WAC), an umbrella organization advocating for the rights of Azerbaijanis expelled from present-day Armenia.
