Reuters (15 April 2025)

*Malaysian mobile data service company U Mobile said on Tuesday it will use infrastructure technology from China's Huawei Technologies and ZTE (000063.SZ), opens new tab to roll out Malaysia's second 5G network.*

Malaysia announced in May 2023 that it would move to a dual network model as part of a government effort to dismantle monopolies.

In September 2023, Prime Minister Anwar Ibrahim said the move would allow for more effective participation by Huawei, providing a balance of both Western and Eastern technology, despite security concerns from some Western countries.
