
ARMENIAN NUCLEAR POWER PLANT TO BE HALTED FOR 60-DAY PLANNED MAINTENANCE

-

15.05.2025

ArmenPress (14 May 2025)

The Armenian Nuclear Power Plant will be halted for a 60-day planned maintenance, a senior executive of the plant has said.

The plant will be halted for 15 days more than the standard timeframe because parallel with ongoing repair work the automated systems of the turbine section, and the safety system of generators and transformers must be replaced, Sputnik Armenia quoted Movses Vardanyan, First Deputy Director-General of the Nuclear Power Plant as saying during Russian Ambassador Sergey Kopyrkins visit to the facility.
