*Solar farm deal sealed, wind venture reportedly in works.*

Azerbaijan is hoping China can play a big role in helping Baku fulfill its ambitions of building a green energy corridor to Europe.

Azerbaijani officials and representatives of China's Datang Overseas Investment Co. signed a deal November 12 covering construction of a 100 Megawatt solar power plant. The sides also agreed to explore the development of offshore wind power, energy storage systems and the implementation of technical training programs.
