Trend News Agency (16 May 2025)

Abdullo Janob

Representatives of Kyrgyzstan and South Korea discussed issues of expanding trade, economic and investment cooperation during the second round of Kyrgyz-Korean inter-ministerial consultations held in Bishkek, Trend reports via the Ministry of Foreign Affairs of Kyrgyzstan.

The meeting between representatives of the two countries diplomatic ministries was part of the cooperation program between the Ministry of Foreign Affairs of Kyrgyzstan and South Korea, signed during President Sadyr Zhaparovs official visit to South Korea in early December 2024.

The parties covered a wide range of bilateral and multilateral cooperation issues. Special attention was given to implementing agreements reached during the Kyrgyz presidents visit to South Korea, particularly efforts to deepen trade, economic, and investment collaboration, as well as to carry out grant-funded technical projects within the framework of the Official Development Assistance (ODA) program.
